
Restoring Our Forest Legacy

Blueprint for Sierra Nevada National Forests

The FSEEE-Sponsored Plan
For the National Forests of the Sierra Nevada
Submitted to the U.S. Forest Service, 1999

Forest Service Employees
for Environmental Ethics
P.O. Box 11615 • Eugene OR 97440

Forest Service Employees for Environmental Ethics thanks everyone who assisted in the development of this landscape/watershed-based plan for Sierra Nevada national forests. Many current and former Forest Service employees, scientists, social scientists, and natural resource professionals from other agencies and organizations provided ideas, suggestions, insights, and expertise in the preparation or peer review of this planning document, including:

- David Beesley, Ph.D.*, Professor of History Emeritus, Sierra Community College
- Brian Boroski, Ph.D.*, Wildlife Biologist, Pacific Southwest Research Station (Fresno), U.S. Forest Service
- Susan Britting, Ph.D.*, Botanist (Former), Eldorado National Forest
- Steve Brougher*, Wilderness Manager (Former), Stanislaus National Forest
- John Buckley*, Fuels Crew Foreman, Fire Prevention Technician, and Hotshot (Former), Stanislaus National Forest
- Ann Carlson* (Reviewer), Forest Fisheries Program Manager, Tahoe National Forest
- Mike Chapel* (Reviewer), Regional Forester's Representative, Pacific Southwest Region, U.S. Forest Service
- David N. Cole, Ph.D.* (Reviewer), Research Biologist, Aldo Leopold Wilderness Research Institute, Rocky Mountain Research Station, U.S. Forest Service
- Dave Connell*, Wildlife Biologist (Retired), Tahoe National Forest
- Lyle A. Dale, Jr.* (Reviewer), Historian, Santa Ana, California
- Barry Davis* (Reviewer), Range Specialist, Pacific Southwest Region, U.S. Forest Service
- Frank W. Davis, Ph.D.* (Reviewer), Professor of Geography, University of California, Santa Barbara
- Lynn Decker* (Reviewer), Regional Fisheries Program Manager, Intermountain Region, U.S. Forest Service
- Don C. Erman, Ph.D.* (Reviewer), Professor Emeritus, Department of Wildlife, Fish, and Conservation Biology, University of California at Davis
- Nancy Erman* (Reviewer), Specialist/Lecturer, Department of Wildlife, Fish, and Conservation Biology, University of California at Davis
- James Frazier*, Forest Hydrologist, Stanislaus National Forest
- Holly George*, Livestock and Natural Resources Advisor, University of California Extension
- Bruce Goldstein*, City and Regional Planning, University of California at Berkeley
- Nate Greenberg*, Wilderness Ranger (Former), Stanislaus National Forest
- Thomas Gross*, GIS Specialist, ESRI, Inc., and Firefighter (Former), Southwestern Region, U.S. Forest Service
- Ed Grumbine, Ph.D.* (Reviewer), Director, Sierra Institute, University of California Extension
- Gary Guenther*, Wilderness Ranger (Former), Inyo National Forest
- Lorin Hatch, Ph.D.*, Post-Doctoral Research Associate in Water Quality, University of Minnesota
- David B. Herbst, Ph.D.*, Aquatic Ecologist, Sierra Nevada Aquatic Research Laboratory, University of California
- Rich Hunter*, Biological Consultant, President, Talon Associates
- Richard Kattelman, Ph.D.*, Research Hydrologist, Sierra Nevada Aquatic Research Laboratory, University of California
- William Kinney, Ph.D.*, Resource Economist and Consultant, Collaborative Rangeland Restoration Associates
- Roland A. Knapp, Ph.D.*, Research Biologist, Sierra Nevada Aquatic Research Laboratory, University of California
- Mary Kwart*, Prescribed Fire Specialist, Yosemite National Park
- William Laudenslayer, Ph.D.*, Research Wildlife Biologist, Pacific Southwest Research Station (Fresno), U.S. Forest Service
- Christine Mai* (Reviewer), Forest Hydrologist, Eldorado National Forest
- Kathleen R. Matthews, Ph.D.*, Aquatic Ecologist, Pacific Southwest Research Station, U.S. Forest Service

Peter B. Moyle, Ph.D., Professor of Fisheries Biology, University of California at Davis
Robert D. Olson, Assistant Forest Fire Staff Officer (Retired) and Consultant, Lassen National Forest

Michael Olwyler, Wilderness Manager, Sierra National Forest

David J. Parsons, Ph.D., Director, Aldo Leopold Wilderness Research Institute, Rocky Mountain Research Station, U.S. Forest Service

Don Potter, Ecologist, Stanislaus National Forest

Roger A. Powell, Ph.D., (Reviewer), Behavioral Ecologist, North Carolina State University

Margaret Rivers, Biological Technician (Former), Sierra National Forest

Emily Roberson, Ph.D., Senior Land Management Analyst, California Native Plant Society

Cindy K. Roberts (Reviewer), Wildlife Biologist, Plumas National Forest

Ken Roby, Aquatic Ecologist, Lassen and Plumas National Forests

Bob Rodgers, Giant Sequoia Specialist, Silviculturist, Sequoia National Forest

Zane G. Smith, Jr. (Reviewer), Regional Forester (Retired), Pacific Southwest Region, U.S. Forest Service

Stan Stephens, Fisheries Biologist, Visalia, California

Andrew P. Stubblefield, Watershed Hydrologist, University of California at Davis

Jared Verner, Ph.D., Research Biologist, Pacific Southwest Research Station (Fresno), U.S. Forest Service

Jan van Wagtenonk, Ph.D., Research Scientist, U.S. Geological Survey, Western Ecological Research Center, Yosemite Field Station

Richard Wheaton, Resource Information Specialist, Regional Reinvention Lab, U.S. Forest Service

Peter Walker, Ph.D., Assistant Professor of Geography, University of Oregon

Darrell Wong (Reviewer), Associate Biologist, California Department of Fish and Game

Additional scientists, social scientists, and natural resource professionals who participated in the development or peer review of this plan preferred to remain anonymous or did not give explicit permission to be named. This is not a list of endorsements. Affiliations provided for identification purposes only.

This report was produced by an FSEEE self-directed work team including *W. Dean Carrier*, California Field Representative; *Bob Dale*, Field Director; *Jim Desmond*, Development Director

Additional support came from *Dennis Bishop*, cover design and production assistance; *Adel Brown*, copy editing; *Martha Carlisle*, production assistance; *John Ebeling*, GIS support; *Matt Rasmussen*, editing; *Clancey Printing Company*

This report was produced with generous support from *Compton Foundation, Inc.*, Menlo Park, California
The Pew Charitable Trusts, Philadelphia, Pennsylvania
W. Alton Jones Foundation, Inc., Charlottesville, Virginia
FSEEE members

List of Figures	4
Executive Summary	7
Chapter 1. Restoring Our Forest Legacy: An Introduction	17
Chapter 2. Sierra Nevada National Forests: An Environmental History	23
I. Introduction	23
II. Patterns in Human Use to 1984	23
III. The Origins of Ecosystem Management, 1984-1993	26
IV. The Search for New Management Direction, 1993-1999	28
V. Conclusion	32
Chapter 3. Change on the Horizon: Existing Conditions, Key Management Issues	33
I. Watershed Management	33
II. Forest Structure and Composition	38
III. Biotic Resources	43
IV. Fire and Fuels	50
V. Rangelands and Livestock Grazing	57
VI. Wilderness Resources	59
VII. Monitoring, Adaptive Management and Institutional Change	63
Chapter 4. Restoring Our Forest Legacy: The FSEEE Plan for the Sierra Nevada	67
I. Theme	67
II. Goals	67
III. Desired Condition	68
IV. Land Designations	71
V. Watershed Management	76
VI. Forest Structure and Composition	83
VII. Biotic Resources	88
VIII. Fire and Fuels Management	100
IX. Rangelands and Livestock Grazing	106
X. Wilderness Resources	111
XI. Monitoring and Adaptive Management	119
XII. Institutional Change	124

Richard Kattelmann

Conservation is sometimes perceived as stopping everything cold, as holding whooping cranes in higher esteem than people. It is up to science to spread the understanding that the choice is not between wild places or people, it is between a rich or impoverished existence for Man.

Thomas E. Lovejoy
