Subject: RE: Ith OSC Matter

Hi Sherry,

I am guessing that since 2 weeks has passed since you expected the response from the Office of Ethics, that mediation is probably not of interest to the agency. I just want to assure this is correct before I proceed. I am not quite ready to start the investigation because I have two other cases I am still working on, but Glen's case will be the next one I work. If there are any developments to report please let me know... Thank you Sherry!

Rob

Hi Rob - I spoke to Ray Sheehan of the USDA Office of Ethics. He has said
he will have the opinion to us by Wednesday/Thursday next week.

We will start getting these documents together for you. I'm thinking these
should be relatively easy to put our hands on. They'll be worth having when we proceed to mediation. (Melvin)

Before anything is sent to you, I'll touch base with your again.

Thanks much,
Sherry
